others b Dudley

Note:

Is nail making the reason some of the Garratt's were in Belper?

Note: Belper Nail Making

Belper's first major industry was nail making, it dates back to at least the 13th century, probably earlier, essentially a cottage industry with the nailmakers working in small workshops next to their homes. They collected iron rods from a 'Nail Master' and turned these into nails over the course of the week. To ensure maximum production, if the nailmakers wasted more than a few pounds, in weight, their pay was severely docked.

Nailmaking ceased in the early part of the twentieth century, eclipsed during by the textile industry.
